SITUATION SUMMARY

Post Tropical Cyclone Iselle and Hurricane Julio, Hawaii, Pacific Ocean (Update)

Post-Tropical Cyclone Iselle

Tropical Storm Iselle has dissipated. Heavy rains and thunderstorms will continue from remnants of Iselle. Hurricane Julio is east northeast (ENE) and will not heavily impact the state.

Hurricane Julio

The Central Pacific Hurricane Center reports Hurricane Julio has weakened to a Category 1 hurricane as it moves northwest. This motion is expected to continue with continued gradual weakening over the next 48 hours; on this forecast track Julio will pass 250 miles northeast of the Island of Maui on 10 August. The Governor of Hawaii signed a preparatory Emergency Proclamation on 6 August.

FEMA Stance

The FEMA National Watch Center's Enhanced Watch has been demobilized for Julio and Iselle. The FEMA National Response Coordination Center is not activated. The FEMA Region IX Regional Response Coordination Center has deactivated. The Hawaii Emergency Operations Center has returned to normal operations. There are no requests for FEMA assistance. USCG District 14 reports all ports are open and normal operations have resumed.

EMAC Deployment

2014-SOC-4699 Deployment of A Team Type I Staff

- (2) OES staff and (1) CNG departed 8/8/2014, expected to return Tuesday, 08/12/14 or Wednesday, 08/13/14.

SITUATION SUMMARY

San Bernardino County Flooding, San Bernardino County (No Change)

Update:

- San Bernardino County Operational Area is activated at Level I Duty Officer status, as there is a possibility of rain later today, Saturday 08/09/2014, and into Sunday 08/10/2014, which could affect areas already impacted by the August Severe Weather Incident.

Background: On 08/03/14, the Southern Duty Officer (SDO) was notified by the California State Warning Center (CSWC) that San Bernardino County Operational Area (SBOA) emergency operations center (EOC) had activated at a Level I in support of the significant flood events for the following areas in San Bernardino County; Forest Falls, Mount Baldy, Oak Glen and Lytle Creek. Flash floods Sunday brought thick debris flows that cut off access to towns. Numerous residents in the San Bernardino Mountains were unable to get out because the roads were covered with mud, rock and debris. Per the SDO there are no unmet emergency management and access and functional needs (AFN) nor any requests for State assistance.

Cal EOC Incident – 2014 Drought

Drought Proclamations

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

An upper level low off the central California coast will increase thunderstorm chances today into Monday. Thunderstorms may approach the redwood coast from the southeast this evening. Temperatures will remain slightly above normal across the interior with near normal temperatures at the coast into early next week.

San Francisco Weather:

Temperatures will remain near or slightly below seasonal averages through early next week with generally dry weather conditions. A slight warming trend is then expected for the latter half of the work week.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Thunderstorms are possible over the mountains the next several afternoons. Potentially more widespread thunderstorms Monday and Tuesday including valley locations. Temperatures to remain near normal through the week.

Hanford Weather:

Temperatures will remain a little above normal over the weekend then lower slightly into early next week. Thunderstorms will be possible over the entire area beginning early Monday morning and continuing into early Tuesday morning. After Tuesday morning thunderstorm chances shift to the Sierra Crest.

WEATHER

WEATHER SYNOPSIS BY REGION: (Cont.)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Night through morning low clouds and fog will continue into next week for much of the coastal plain and some valleys due to weak upper level low pressure off the California coast. Temperatures will remain near normal for the week ahead. There will be a slight chance for some monsoonal thunderstorms in eastern Los Angeles County early next week.

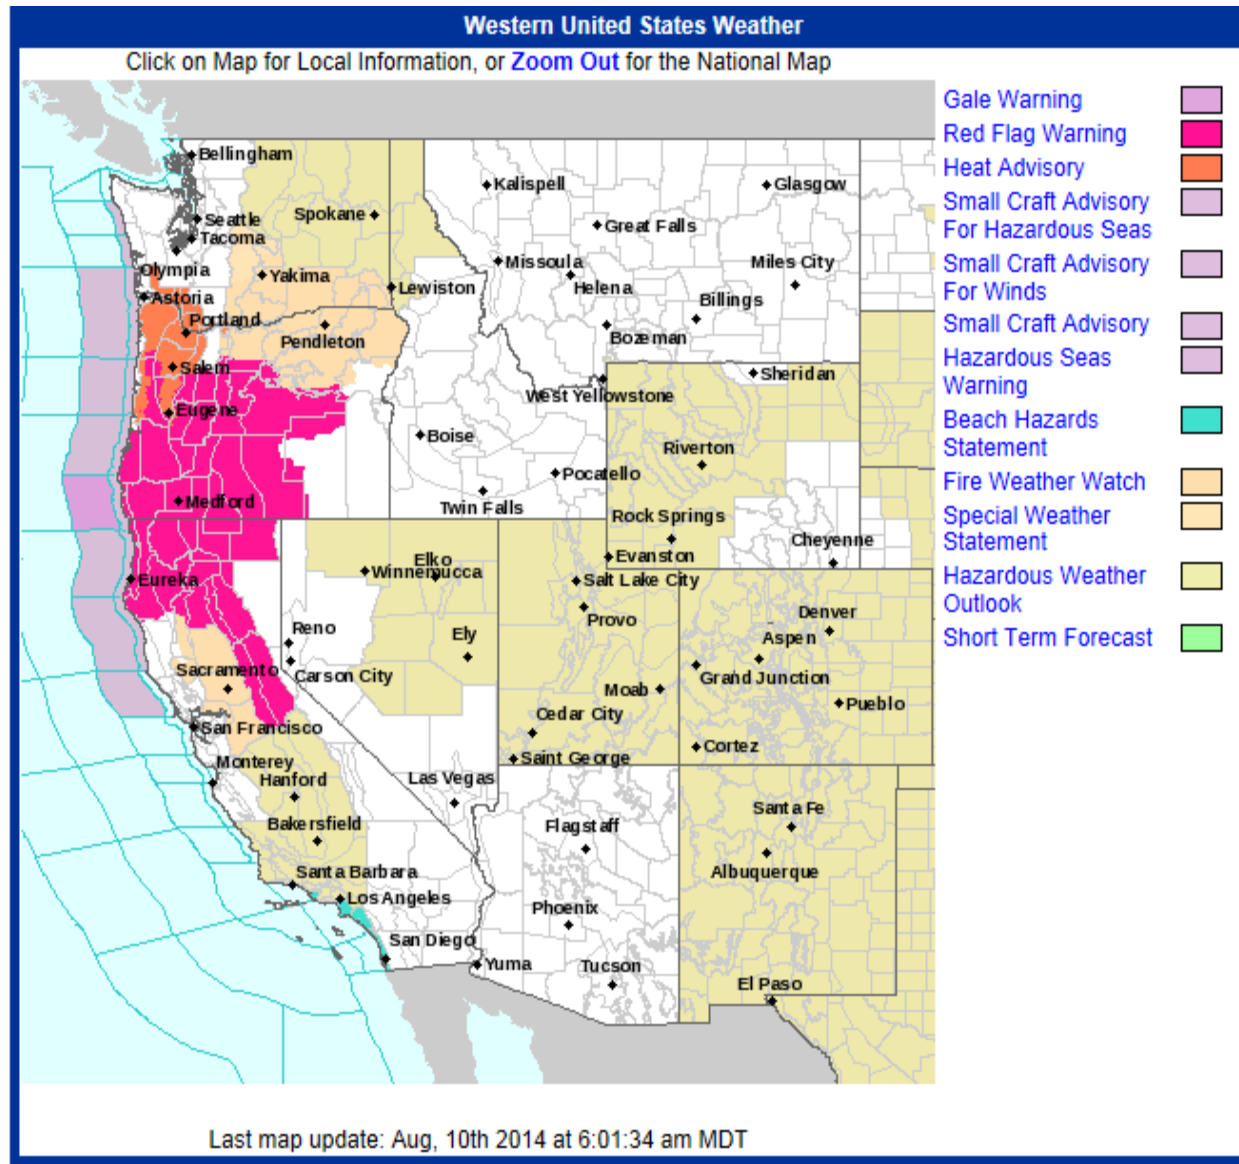

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Monsoonal moisture will bring a slight chance of afternoon and early evening thunderstorms to the mountains and deserts for Monday and Tuesday. Otherwise, dry weather with seasonal temperatures for the next week. Night and morning coastal low clouds and fog will be somewhat patchy the next few days with greater coverage later in the week.

Southeast California Weather:

Moisture levels will continue to swing upwards and improve chances for monsoon rain through the middle of the week in the afternoons and early evenings. Temperatures will remain near normal levels. Drier conditions expected beginning Thursday as westerly flow pushes back over the region.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- Current Reservoir Levels continue to decline. Levels as of August 7th : Don Pedro 43%; Exchequer 19%; Folsom Lake 41%; Lake Oroville 34%; Millerton Lake 51%; New Melones 25%; Pine Flat 12%; San Luis 21%; Lake Shasta 33%; Trinity Lake 34%; Pyramid Lake 93%; and Castaic Lake 47%.
- Emergency Drinking Water Procurement and Distribution Planning Guidance (rev. May 2014)
Significant changes have occurred to the structure of California's state government organization. Rapid advances in systems, science, and technology have helped emergency managers improve coordination, forecasting, and situational awareness. Because of these changes, the *Multi-Agency Emergency Response Procedures for Potable Water Procurement & Distribution* document has been replaced by the *Emergency Drinking Water Procurement and Distribution Planning Guidance*. The intent of this guidance document is to clarify the roles and responsibilities of the stakeholders involved in locating, procuring, and delivery of emergency drinking water¹ to populations in California. Consequently creating a framework for agencies and organizations to work together to enhance preparedness.

Situational Summary

- State Board Mandatory Conservation Regulations Now in Effect: The state's first-ever emergency regulations mandating urban water conservation became effective will be in effect until April 25, 2015.
http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/emergency_regulations_waterconservation.shtml
- The 2014 Governor Drought Task Force continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

Ongoing Cal OES Missions

- **2014-LAW-4759, 8/9/2014, 0015 hours**, Alpine County Sheriff's Department (ACSD) requesting resources to locate a missing 58 year old male hiker. ACSD is requesting 40 ground searchers, 3 search dog teams (2 area dogs, 1 water dog) and 1 dive team. M/P was last heard of in the Sunset Lake area. ACSD advised that they located M/P's backpack and camping gear. El Dorado and Amador County Sheriff's Department is responding with ground searchers. El Dorado County Sheriff's Department is responding with their dive team also. California Governor's Office of Emergency Services, Law Enforcement Branch is coordinating the search dog response. Cal OES TCOMM is also supporting the mission; Cal OES Communications Coordinator with cache of radios; radios have been delivered to the ICP. ***Mission On-going***
- **2014-LAW-3978**, On 08/05/2014 at 1519 hours, this law mission was continued at the request of San Bernardino County Sheriff's Department (SBSD). SBSD is requesting Los Angeles County Sheriff's Department (LASD) Mine Team to assist in a continuing search for human remains related to an active, ongoing homicide investigation in the Twenty Nine Palms area. The continued search was scheduled for this weekend, 8/09-8/10; however, has been postponed to the following weekend, 08/16-17/2014. LASD's Mine Team has accepted the mission and will respond. **Mission On-Going**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
